

Surpassion EX

Ergonomic RGB Gaming Mouse

Surpassion EX is an ergonomic and powerful gaming mouse with the RGB lighting shortcut function. It's ideal for those who love RGB vibe & comfortable gaming experience.

Ergonomic Design For More Comfort

For those who enjoys the smooth & comfortable control, Surpassion EX will be the best partner ! By the ergonomic shape design and the button clicking fine-tuned, Surpassion EX could be more simple and ready to tackle user's demands with no fuss. Surpassion EX will become a good choice for casual users !

Get Precisely & Better Accuracy

30G | **6400 DPI** | **150 IPS**
MAX ACCELERATION | RESOLUTION | MAX SPEED

With the excellent PixArt PAW 3309 optical sensor inside, Surpassion EX provides the precise tracking which delivers high speed reliability at 150 IPS, 30G acceleration and pinpoint accuracy up to 6400 DPI with a 1ms polling rate. Players could use with its precise accuracy and do anything better! Just using the Surpassion EX!

Built to Last

Engineered to give gamers the unparalleled performance within the intense gameplay, Surpassion EX is made of good material and is equipped with the 20 million click switches which bring better clicking feel.

It not only brings the lowest response time but also ensure the switch's durability. Every component has been engineered for great value and certainly built to last.

COMET RGB Shortcut

Surpassion EX could set various lighting effects just by the COUGAR COMET RGB SHORTCUT within the on-board memory. There are 7 lighting modes to choose and also provide more deep setting such as color change under each mode / color brightness / color directions by the lighting shortcuts. Users could change the light easily on their own and without installing any software. What a brilliant setting of RGB light from Surpassion EX!

Gliding More Faster

The more smoother PTFE skates of Surpassion EX offers a smooth, effortless glide with low-friction, which makes mouse more responsive and become more agile while gaming.

Scroll Indicator

When pressing the DPI button to change the DPI level, Surpassion EX will show the color of each DPI on the scroll wheel for 2 seconds, then get back to original lighting effects that user setting. This makes users know the DPI level instantly, That's really great!
