

ES-C320W

A4 compact scanner with Wi-Fi and an incredibly small footprint while in use, versatile media handling and low power consumption.

The scanner's U-turn path position allows paper to be scanned without adding to the footprint of the device. Switch to straight path mode to scan passports and booklets up to 5mm thick. Paper protection technology ensures that the original documents remain pristine. Made from up to 30% recycled plastics* and with a low power consumption, it also has a lower environmental impact.

Ultra-compact

When the scanner is in U-turn path position, paper can be scanned without adding to the device's footprint, making it the perfect choice when space is at a premium. Wi-Fi connectivity allows for more flexible placement options. Compatible with Windows, Mac, Chromebook, Android Mopria, Apple Airprint and Epson's SmartPanel application.

Versatile

The ES-C320W is extremely versatile, handling from envelopes and PL cards to long paper and A3 (stitched). With the use of a carrier sheet, it can even scan passports and booklets up to 5mm thick. The ES-C320W also comes with a host of enhancement features, enabling you to improve text sharpness, as well as correcting edge folds, tears, border shadows and punch hole removal.

Two-in-one

The selector allows you to easily switch between straight path mode and U-turn mode, even while in operation, enabling you to create a single PDF. When the scanner is in U-turn mode, paper can be scanned without adding to the device's footprint, making it the perfect choice when space is at a premium. This makes it the ideal for any environment where desk space is limited.

Lower environmental impact

The scanner is made with up to 30% recycled plastic*. In addition, with a power consumption of only 3.3W in ready mode and 1.0W in sleep mode, it will also save you energy.
