

- **Tempered glass front & side panels**
- **3x pre-installed 120mm A-RGB Fans**
- **A-RGB control hub with M/B sync and PWM fan speed control**

The **CHIEFTEC VISTA** features tempered glass panels on both the left and front sides, incorporating a top-bottom layout. This design allows for a clean interior view and unobstructed airflow.

This refined internal layout supports the installation of 360mm radiators on the top or CPU tower coolers up to 160mm in height. High-end GPUs up to 400mm can be easily accommodated, thanks to its spacious and well-ventilated configuration.

The case comes with three pre-installed 120mm A-RGB fans and a control hub for motherboard synchronization of A-RGB lighting and PWM fan speed control. Two of these fans are designed with reverse airflow fan blades to enable the optimum intake on the sides and bottom, without compromising aesthetics. Designed with gamers in mind, the CHIEFTEC VISTA enables the creation of a distinctive and personalized build.
