

- **Compatibility with back-connect motherboards**
- **Tempered glass side panel**
- **4x pre-installed 140mm PWM Fans**
- **Perforated Steel Front Panel**

The **CHIEFTEC Night Hunter** represents the black-out, airflow-focused variant of the Hunter 3 gaming case. Built on a completely new chassis design supporting up to E-ATX motherboards, plenty of cooling options for radiators, while accommodating the latest back-connect motherboards in ATX format (ASUS BTF and MSI Project Zero compatible).

The optimized internal layout supports the mounting of 360 mm radiators in the front and on the top and CPU tower coolers up to 178 mm in height. High-end GPUs up to 425 mm can be easily accommodated, thanks to its spacious and well-ventilated configuration.

The Night Hunter comes with 4 pre-installed 140mm PWM fans that allow for PWM fan speed control to achieve optimum airflow with minimal noise. With a perforated steel front panel as well as overall clean and linear design, CHIEFTEC Night Hunter is ready to support modern gaming systems in a timelessly elegant chassis.
