SE920 External SSD
# BLAZING TRANSFERS & COOLING AT A TOUCH

## SE920 External Solid State Drive

The SE920 utilizes the latest generation USB4 transmission interface with a read/write of 3,800/3,700MB per second and its heat dissipation system is equipped with a built-in micro fan. Simply pushing on the casing extends the chassis to quickly discharge heat. When the extendable case is retracted volume is reduced, facilitating storage. This ingenious "patented active cooling" design significantly reduces temperatures by 10% compared with fanless products of the same specifications and has won the Red Dot Design Award, CES Innovation, and Taiwan Excellence Award in 2022 and 2023.

### Latest USB4 Transmission Interface

The SE920 adopts the latest generation USB4 transmission interface, with speeds reaching up to 40Gbps. It is backward compatible with USB 3.2 and USB 2.0 and supports Thunderbolt3/4. In addition, it features a Type-C port and is able to easily and quickly transfer large audio and video files at ultra-high-speed anytime, anywhere.

### Breakneck Speeds at 3800MB/s

The SE920 features the latest generation USB4 transmission interface, with transmission performance of up to 3,800MB/s. Transfer of a 10GB 4K high-definition video can be completed in about 3 seconds.

## Press for Patented Active Cooling

The SE920 features a unique heat dissipation system with a built-in micro fan. Press down on the case to activate the fan, increasing interior area for cooling and quickly dissipating heat. Press the case again to retract its shroud. This ingenious "active patented cooling" system is 10% cooler than fanless products of the same specifications.

## Built for Seamless Gaming

The SE920 can also be connected to a game console to expand your storage. Loading times are faster than traditional hard drives, instantly improving your entertainment and quality of life.

## Features

- USB4 40Gbps Type-C interface
- 3,800/3,700MB/s Read/Write performance
- Actuate patented outer shell to activate a built-in micro fan, increasing heat dissipation
- Winner: CES Innovation Award 2023, Taiwan Excellence Award 2022, Red Dot Design Award 2022
- Supports Windows, Mac OS, Android, Xbox one, XBOX Series X|S, PS4 and PS5 consoles

## Specifications

- Capacity: 1TB/2TB
- Color: Black
- Dimensions (L x W x H):
  Fan-off(Case closed): 105 x 64.2 x 15.9mm / 4.13 x 2.52 x 0.62inch
  Fan-on(Case extended): 122.56 x 64.2 x 15.9mm / 4.82 x 2.52 x 0.62inch

- Weight: 181.52g / 6.4oz
- Interface: USB4 (USB 40Gbps)
  ( backward compatible with USB 3.2/2.0 )
- System requirements:
  Windows 10 / 11, MacOS 13 or later, Linux Kernel 6 or later, Android 13 or later
- Warranty: Limited 5-year

| Capacity | Color | Product Code | EAN Code |
|----------|-------|--------------|----------|
| 1TB | Black | SE920-1TCBK | 4711085939791 |
| 2TB | Black | SE920-2TCBK | 4711085939807 |
