

# CS-HGT2-R100-S

Remote Controller (for Gate Opener)

## Introduction

The HGT2 remote controller is compatible with all EZVIZ brand gate openers, offering a seamless and convenient way to control your system. It operates using RF433 technology, ensuring a reliable and stable signal for long-distance communication. You can take full control of your gate opener with this 4-button remote controller: instantly open, close, or stop your gate opener. The customizable 4th button (set up in the app) can operate a second EZVIZ gate opener, or even a third-party motor when paired with an EZVIZ Wi-Fi relay.

## Main Features

RF433

Supports all EZVIZ Gate Opener

CR2032 Battery

4-Button Remote Controller

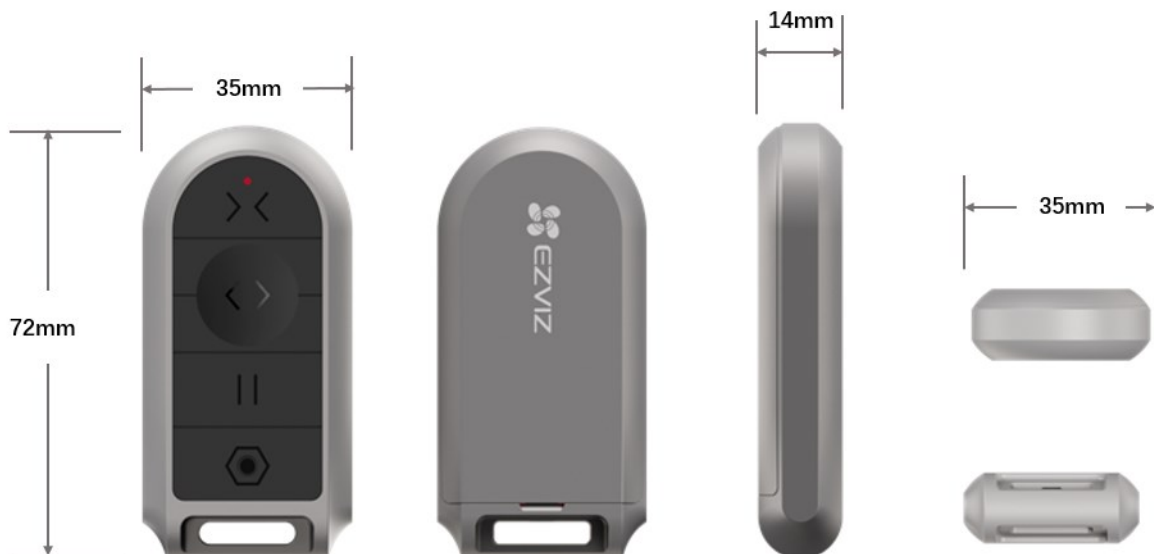

Control Up to 2 Devices

3 Years Warranty
