Recording/Playback

Expand your storage space

The Verbatim Store 'n' Save desktop hard drive is the ideal solution for easy, add-on storage of all your important photos, music, videos and files.

Being Plug'n'Play, there's no software to install - it's ready to work with Windows PC right out of the box, just plug into the USB port to add storage instantly. Data is transferred super quickly with its USB 3.2 Gen 1 interface (older USB 3.0), and it is also backward compatible with USB 2.0 devices.

The Verbatim Store 'n' Save drive can be placed flat, or on its side, to help create more space on your table. When you switch it on, the Verbatim welcome screen will appear giving shortcuts to software, user manuals, support information and the directory of your drive.
